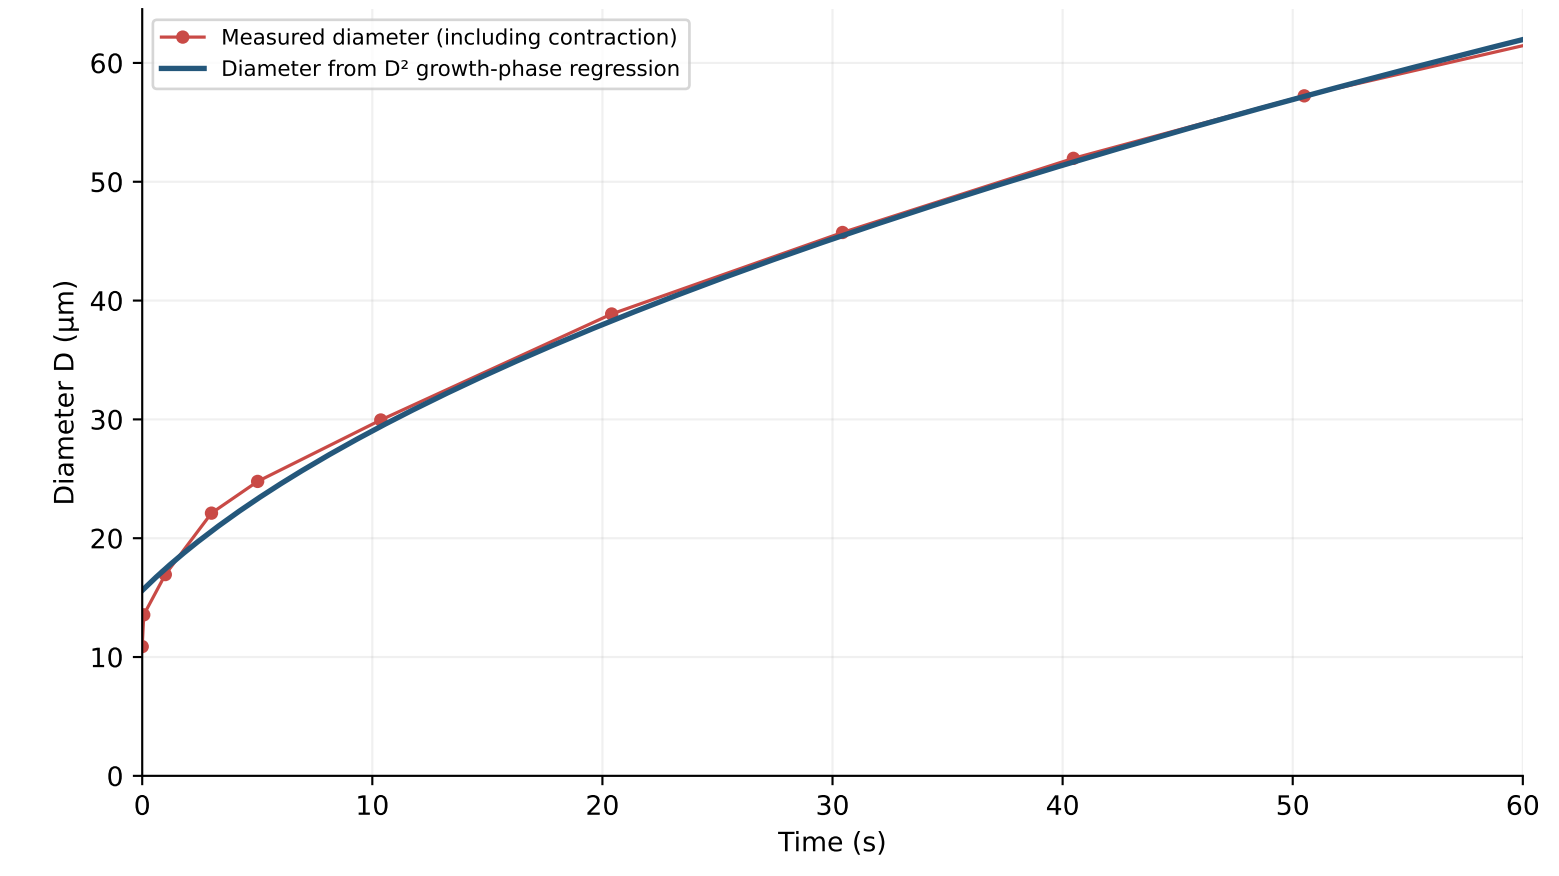
Measured red trajectory: growth phase
OLS fit: 59.94 µm²/s
Published 30–80 µm²/s slope envelope (illustrative)
First diameter maximum at 60.54 s is included in the fit but lies outside the displayed axis.
Squared diameter D² (µm²)
Time (s)



Measured diameter (including contraction)
Diameter from D² growth-phase regression
Diameter D (µm)
Time (s)
